New York... The United Black community organized and kept up the pressure against the fascist New York police and four of their barbarians in the cowardly murder of 22 year old Amadou Diallo, a street vendor from Guinea. The overseers of our captivity fired 41 shots at the unarmed brother. The deadly assassins hit the unarmed defenseless man 19 times taking his life.

In weeks of intense protesting and almost 1,000 people arrested, the racist system caved-in and indicted their own Assassins. Among the protesters arrested were Rep. Charles Rangel and former Mayor David Dinkins. Both during their careers as system politicians have had no impact on the wanton slaughter of our people in the 'hood. Joining them were some of New York's most dynamic activists and grassroots folk who kept the heat on. We must understand, they view us as their slaves that must be controlled by brutal force and they enjoy their gig.

The shooting is under investigation of this systems so-called Justice Department's Civil Rights Division. The Community needs to be congratulated for their efforts. At the same time, we must realize and better began to understand people's justice. Too many times all over this nation official terror in the name of policing us has resulted in brutality, frame ups and murder. On each occasion when we are not caught sleeping or digging in our noses and eatin' it, the case gets to court. And the Blue terrorist walks as the white community cheers.

However, this brings new shit into the game and usually the Blue Terrorist walks, even though the guilt is obvious. So obviously, justice here in the United Snakes is not available through so-called proper channels. If you believe we are a nation in a nation, then you must be aware of the responsibility we have to our people. The enemy must be made to realize that these are new times. We must up the cost for them murdering and butchering our people. Believe me until they feel it, they will not stop this deadly sport. Let our enemies beware.

These white policemen and their mute counter-parts must be put on notice. Any people not prepared to defend themselves are already dead. These are not radical thoughts but logical ones used by all the earth's people but we. Stay strong New York, your struggle is respected. Continue to fight the good fight. Anything short of self defense is counter-productive and cowardly.
