Everything was unleashed on our people including hurricane Katrina herself, as the genocidal program against our people steamrolled over the helpless. There was no mercy, just the execution of their murderous plan and their goals and objectives to set up tomorrow's reality which is not to include Black and poor people.

We watched in horror as the mass murders were executed right in front of our faces, the elders, children, women and men died. Like the murderous live broadcast of the deaths of thousands, color TV screens were red as Katrina's waters flowed claiming lives and the culture of the people.

Again Amerikkka was littered with the dead, body parts and the traumatized as they broke for a commercial seeped in capitalistic humor. You can't look away, you must keep your eyes on your deadly enemies as we plan to combat the genocidal machine and the New World Order scheme to steal mother Earth and destroy hue-manity.

The Amerikkkan military has seeped into our lives and now is streaking to capture us all. Times ain't changed, they've changed the times with synthetic terrorist scares, fascist Patriot Bills, military and armed guards in the subways, on the planes and in the malls seasoned with Homeland security lockdowns that telegraph that Amerikkka's true enemy is within. Once the experience of the victims of Katrina are circulated the warning will be complete.

-September 2, 2005 Troops told "shoot to kill" in New Orleans A detachment of 300 National Guard troops have landed... with the authorization to shoot and kill "hoodlums", Louisiana Governor Kathleen Blanco says.

-300 of the Arkansas National Guard have landed in New Orleans, Blanco said. "These troops are fresh back from Iraq, well trained, experienced, battle-tested and under my orders to restore order in the streets... They have M-16s and they are locked and loaded. These troops know how to shoot and kill and they are more than willing to do so if necessary and I expect they will" said the murderous Bitch!

-Many people have spent four days without proper food, water and sanitation and endured nights of lawless blackout. Residents reported survivors dropping dead in shelters. Hospitals were evacuated after power ran out.

-Blanco said up to 300,000 survivors might still be stuck in disaster areas in the state and at least 40,000 uniformed troops were needed for New Orleans alone.

-FEMA had been in the city for three days "yet there is no command and control". "We can send massive amounts of aid to tsunami victims but we can't bail out the city of New Orleans" was the cry.

-And the people scream, "This is America, I don't understand the lack of communications between the authorities and the people... It is disgusting, we feel we have been forgotten."

-President George W Bush vowed "zero tolerance" for armed gangs and profiteers as the bodies are starting to decompose on the streets of New Orleans in the wake of Hurricane Katrina... Genocide!

-People of New Orleans were disarmed by the military and the police, consequently they could not defend themselves from internal or external predators... under what authority was this done...

-officials were confiscating lawfully-owned firearms from law-abiding citizens. Gottlieb said. In every other natural disaster this country has ever faced, people retain their civil rights, including the right of self-defense, but not in New Orleans.

-Report: Armed Mexican Troops Invade U.S. Eyewitnesses, under the cover of aid, these combat ready soldiers roll into Texas, Congressman Ron Paul says Mexican troops in US period is "illegal, unconstitutional"

-The Associated Press reported today that unarmed Mexican troops were being escorted by the US army to help relief efforts for hurricane Katrina. The convoys reported to Alex Jones are said to be fully armed with Heckler & Koch German assault rifles... the vehicles were festooned with insignia reading 'Mexico MP's' and the Mexican flag.

-U.S. Fleet Forces Command Public Affairs Detachment reported that Mexican marines and Dutch sailors were on Amerikkkan soil. Not civil humanitarian workers but military personnel, get use to it!

- FEMA will not deliver supplies to the estimated 10,000 victims of Katrina, who have refused to leave New Orleans. FEMA already stated three days ago that these people would not receive any food or water. Many of these residents are middle class homeowners who would not have their families broken up in the first days of the rescue as the authorities demanded or more often they refused to leave their beloved pets behind.

-Aid was withheld by FEMA sabotaging relief efforts. The LA Times reported today that "scores of police and volunteer firefighters from around the nation, as well as trucks loaded with donated water, were being prevented from entering New Orleans, while troops conduct house-to-house searches."

-FEMA has caught cutting communication lines. Sheriffs in several counties of New Orleans have set up armed guard patrols to prevent FEMA from further actions of sabotage. Needless to say, cutting communications is an act of war!

-Proving New Orleans was a test run for an all out take over, the chairman of the Senate Armed Services Committee wants to repeal a law that prohibits the use of federal troops in domestic law enforcement. Of course, the use of federal and foreign troops in law enforcement capacities were illegal.

## Black Water Mercenaries

Only dictatorships use mercenaries; mostly to consolidate their hold on the people, maintain control over everything, and to oppress the people as they runaway with their human rights. There is no other reason to use mercenaries, no other reason. These are the reasons the government hired professional killers. Consider this:

-Over the last 3 decades years, many Black families have moved into New Orleans from rural spots. The white elites who control the city, want them evicted. Blackwater, are guns for hire, were called in to evict the people by fear or force. This , of course is at the instigation of the Louisiana Governor. Meanwhile it has been reported that the elite imported Israeli contractors to guard their properties.

- Blackwater mercenaries in New Orleans operated just as they did in Iraq, they carried machine guns and were deputized by the State Of Louisiana to carry out arrests. In addition, they received shot to kill orders and they shot and killed. How many we will never know, nor will we know if they were used for strategic assassinations. In the case below, people said this youth refused to leave and "army types" just shot him.

You may dodge truth, you may duck truth, but in this instant you know as I know, our people were jockeyed into a position to be eliminated in a governmental pre-planned extermination broadcasted on global television.-30
