

excerpts from a speech made by South African President P.[?] W. Botha to his cabinet taken from the August 18, 1985 edition of the Sunday Times, a South African newspaper.

My beloved White Afrikaaners. Greetings to all of you brothers and sisters in the name of our holy blood. On behalf of our precious country and myself, Botha, the President of the Republic of South Africa, I take this opportunity to thank and congratulate you heartily for your courage and determination in giving me your strong hand to keep the Afrikaaner flag flying high. We are going through trying times, and I have chosen to write to you to assure you of my dedication and solidarity with you through fire and brimstone. We live among greedy savages who are after our blood who hate us and want to take from us what we have acquired. But do not forget we are gifted and united people. Long live the White Afrikaaner flag! Long live Afrikaanerdome!

Do not see me as a mere Botha by name, but the very living spirit and promise of your White brothers and sisters. Verily, verily I say unto you, this is our God-given land for which we should fight to the very last drop of blood. We cannot simply stand by and watch all the laurels we have created being plundered by these barbaric and lazy Kaffirs. Pretoria has been made by the White mind for the White man. We are not obliged even the least to try to prove to anybody and to the Blacks that we are superior people. We have demonstrated that to the Black in a thousand and one ways. The Republic of South Africa that we know of today has not been created by wishful thinking. We have created it at the expense of intelligence, sweat and blood.

The blood of our forefathers was poured on this very land for our salvation. We have therefore, a great responsibility to safeguard our treasure, our history and pride. He cannot be wrong he who fights for his own survival and right. Beloved citizens, you are aware of the kind of nonsense being spread all over the world about us. We have been labelled everything bad; but this is not because we are worse than anybody else. Come to think of it my honorable citizens: The racism they talk about didn't begin with the White Afrikaaner. It has always been a fact of this life.

I am simply trying to prove to you all that there is nothing unusual we are doing that the so-called civilized worlds are not doing. We are simply an honest people who have come out aloud with a clear philosophy of how we want to live our own White life. We do not pretend like other Whites that we like Blacks. The fact that Blacks look like human beings and act like human beings do not necessarily make them sensible human beings. Hedgehogs are not porcupines and lizards are not crocodiles simply because they look alike. If God wanted us to be equal to the Blacks, He would have created us all of a uniform color and intellect. But he created us differently Whites, Blacks, Yellow. Rulers and the ruled. Intellectually, we are superior to the Blacks; that has been proven beyond any reasonable doubt over the years. I believe that the Afrikaans is an honest, God-fearing person, who has demonstrated practically the right way of being. He does not engage in the hypocrisy of all these others who love sounding substantive amount of political hot air or to make the world believe that they are better off (illegible) is more concerned about human welfare than we are. We give Blacks employment and a thousand and one other amenities.

Nevertheless, it is comforting to know that behind the scenes, Europe, America, Canada, Australia - all and others are behind us in spite of what they say. For diplomatic relations, we all know what language should be used and where. To prove my point comrades, does anyone of you know of a White country without an investment or interest in South Africa? Who buys our gold? Who buys our diamonds? Who trades with us? Who is helping us develop the nuclear weapon? The very truth is that we are their people and they are our people. It's a big secret. The strength of our economy is backed by America, Britain, Germany, and I have on my list a couple of Black countries - no kidding. Comrade Afrikaaners, survival for the fittest didn't begin with us. It is not the design of the chicken that it should be eaten by the hawk. It is in nature's design that the hawk should eat the chicken: but aren't they both birds? It is in nature's design that the small fish should be eaten by the big fish. It is our strong conviction therefore that the Black is the raw material for the White man. So brothers and sisters, let us join hands together to fight against this Black devil. I appeal to all Afrikaaners to come out with any creative means of fighting this war. Surely

God cannot forsake His own people who we are. By now every one of us has seen it practically that the Blacks cannot rule themselves. Give them guns and they will kill each other. They are good in nothing else but making noise, dancing, marrying many wives and indulging in sex. You just have to look round and take stock of what their independent countries have achieved. Don't we know what is happening in Ghana, Mozambique, Sudan, Nigeria, Uganda, Egypt, to name but a few. Nothing else but chaos, bloodshed, corruption and starvation such as in Ethiopia. Let us all accept that the Black man is a symbol of poverty, mental inferiority, laziness and emotional incompetence. Isn't it plausible therefore that the White man is created to rule the Black man?

The food supply channel should be used. We have developed excellent slow-killing poisons and fertility destroyers. Our only fear is in case such stuff came into their hands as they are bound to start using it against us if you care to think of the many Black working for us in our domestic quarters. However, we are doing the best we can to make sure that the stuff remains strictly in our hands. Secondly, most Blacks are vulnerable to money inducements. I have set aside a special fund to exploit this venue. The old trick of divide and rule is still very valid today. Our experts should work day and night to set the Black man against his fellow man. His inferior sense of morals can be exploited beautifully. And here is a creature that lacks foresight. There is need for us to combat him in long-term projections that he cannot suspect. The average Black man does not plan his life beyond a year; that stance, for example, should be exploited. My special department is already working round the clock to come out with a long-term operation blueprint.

I am also sending a special request to all Afrikaaner mothers to double their birth rate. It may be necessary too to set up a population boom industry by putting up centers where we employ and support fully White young men and women to produce children for the nation. We are also investigating the merit of uterus rentals as a possible means of speeding up the growth of our population through surrogate mothers. For the time being, we should also engage a higher gear to make sure that Black men are separated from their women and fines be imposed on married wives who bear illegitimate children. I have a committee working on finding better methods of inciting Blacks against each other and encouraging murder among themselves. Murder cases among Blacks should bear very little punishment in order to encourage them. My scientists have come up with a drug that can be smuggled into their brews to effect slow poisoning results and fertility destruction. Working through drinks and manufacturing of soft drinks geared to the Blacks could promote the channels of reducing their population.

Our Combat Unit is now training special White girls in the use of slow-poisoning drugs. Ours is not a war that we can use the atomic bomb to destroy the Blacks, so we must use our intelligence to effect this. The person-to-person encounter can be very effective. As the records show that the Black man is dying to go to bed with the White woman, here is our unique opportunity. Our Sex Mercenary Squad should go out and camouflage with Apartheid Fighters while doing their operations quietly, administering slow-killing poison and fertility destroyers to those Blacks they thus befriend. We are modifying the Sex Mercenary Squad by introducing White men who should go for the militant Black woman and any other vulnerable Black woman. We have received a new supply of prostitutes from Europe and America who are desperate and too keen to take up the appointments. Money can do anything for you. So while we have it, we should make the best use of it.

In the meantime my beloved White citizens, do not take to heart what the world says, and don't be ashamed of being called racists. I don't mind being called the architect and King of Apartheid. I shall not become a monkey simply because someone has called me a monkey. I will still remain your bright star, His Excellency Botha. My last appeal is that the maternity hospital operations should be intensified. We are not paying those people to help bring Black babies in this world but to eliminate them on the very delivery moment. If this department worked very efficiently, a great deal could be achieved. My government has set aside a special fund for erecting more covert [sp.] hospitals and clinics to promote this program.
